PROFESSIONAL SUMMARY

Fullstack & Mobile Product Engineer with startup experience iterating products from zero to production across backend architecture, cloud infrastructure, and cross-platform client delivery. Sole author of a live legal-tech platform's full stack — **Node.js/TypeScript** APIs on GCP, a **Next.js** web app, a **React Native** mobile client, and every integration layer connecting them — with end-to-end ownership from schema to screen.

TECHNICAL SKILLS

Programming (TypeScript, Python, SQL) ■■■■■■

Backend (Node.js, Express, APIs) ■■■■■■

Mobile (React Native, Expo) ■■■■■■

Frontend (React, Next.js, Astro) ■■■■■□

Cloud & Infra (GCP, Firebase, Terraform) ■■■■■□

Databases (PostgreSQL, Redis, MongoDB) ■■■■■□

DevOps (Docker, CI/CD, GitHub Actions) ■■■■■□

State & UI (Zustand, TanStack Query, Tailwind) ■■■■■□

PROFESSIONAL EXPERIENCE

LegalTec

Founding Fullstack & Mobile Engineer | Oct 2025 – Mar 2026

Backend & API Platform

- Architected and shipped the entire backend (**Node.js**, **TypeScript**, **Express.js**) as **sole author of 91.6%** of the codebase — 66 API routes, 78+ services, 11 **BullMQ/Redis** workers — taking a legal-tech startup from prototype to production.
- Designed **GCP infrastructure** (Cloud Run, Pub/Sub, Tasks, KMS, Secret Manager, Firebase) supporting distributed async workflows, encrypted storage, and **Terraform**-provisioned CI/CD via GitHub Actions.
- Integrated **PayPal** (Orders, Vault, Subscriptions, Webhooks), **Google Meet** virtual appointments, **Twilio** SMS, and **SendGrid** — delivering the full monetization and communication stack.

Web Frontend (Next.js 15 / React 19)

- Built SSR web application with **Next.js 15** and **React 19** for appointment scheduling, lawyer profiles, and client dashboards — consuming the backend API with type-safe contracts.

Mobile App (React Native / Expo)

- Built cross-platform mobile client (**8 826 TS/TSX lines**, 89 files) fully integrated with the backend — owned routing bootstrap, domain feature delivery, and the complete client-server contract from day one.
- Engineered encrypted session lifecycle with **Expo Secure Store**: token storage, silent refresh, and a queued Axios interceptor resolving parallel 401 races — zero auth breaks in production.
- Wired real-time push notifications via **Firebase Cloud Messaging** — device registration, foreground handling, and notification-driven deep-linking.
- Delivered role-aware navigation with **Expo Router** (lawyer vs. client): session-hydration guards, profile-completion gates, and conditional polling per appointment state using **TanStack Query** and **Zustand**.

Universidad Panamericana – iOS Development Lab

Backend Lead | Oct 2022 – Present

- Promoted to lead Sep 2025; mentors students on **Python**, clean architecture, and API design while guiding projects to production with **Django/Flask** and **PostgreSQL** backends.

PROJECTS & ACHIEVEMENTS

GPSpei (React 19, TypeScript, Vite, Tailwind CSS, Dexie/IndexedDB, Zustand)

- Deployed **local-first PWA** that deterministically recommends the best credit card per purchase in Mexico — analyzes merchants, cashback rates, promotions, and benefits entirely client-side with **IndexedDB** (Dexie) persistence, geolocation, and offline support. Live on Cloudflare.

Photo Portfolio (Astro, React, TypeScript, Tailwind CSS, Sharp, Exifr)

- Engineered bilingual (EN/ES) static site with route-based i18n, custom image pipeline (**Sharp** optimization + **Exifr** EXIF extraction → JSON metadata), and lazy-loaded masonry gallery. Live at jrmgraphy.com.

Notadio (React/Vite, Express, TypeScript, whisper.cpp, Ollama, Python)

- Full-stack local AI transcription app — React frontend with live telemetry wired to an Express backend orchestrating **whisper.cpp** and an **Ollama** MapReduce summarization pipeline; speaker diarization (pyannote), zero API costs; deployed on VPS with Caddy + systemd.

EDUCATION

Universidad Panamericana Mexico City, Mexico

B.Eng. in Data Intelligence and Cybersecurity

Aug 2022 – Jun 2027

Languages: Spanish (native) • English C1 – TOEFL iBT 607
